NOTES

- Figures are stated net of movements associated with the ALN share of the reference portfolio.
- Ratio of net available cash, portfolio value and undrawn loan facility to outstanding commitments.
- Taxes relate to withholding taxes on investment distributions.
- Based on the change in ordinary share price over the period.
- Net available cash calculated as cash and net current assets/(liabilities) less undistributed net cashflows associated with the ALN.
- The Asset Linked Note ("ALN") refers to the unlisted 10-year note issued on 31 October 2017 whose cost and repayments are linked to a reference portfolio consisting of the Company's older vintage funds.
- PIP renewed its multi-currency credit facility on 4 June 2018, increasing the size of the facility from £150m to £175m. The undrawn loan facility as at 30 June 2019 reflects movements in exchange rates as it is denominated in Euros and US dollars. The loan facility remains fully undrawn.
- Available finance calculated as net available cash and undrawn loan facility.
- PIP's valuation policy for private equity funds is based on the latest valuations reported by the managers of the funds in which PIP has holdings. In the case of PIP's valuation as at 30 June 2019, 98% of reported valuations are dated 31

March 2019 or later. The Fund Reporting Date Analysis at 30 June 2019 shows the respective reporting dates on which the valuation was based. Where receipt of post completion valuation reports is pending, any new secondaries or co-investments are held at cost. A full version of PIP's valuation policy can be found in the Notes to the Financial Statements section of PIP's 2018 Annual Report and Accounts.

- The figure includes assets subject to discretionary or non-discretionary management, advice or those limited to a reporting function.
- As at 31 May 2019.
- Based on valuations as at 31 March 2019 adjusted for known calls and distributions to 31 May 2019. The chart on page 3 accounts for over 98% of PIP's portfolio.
- Excludes cash flows attributable to the ALN.
- The Global category contains funds with no target allocation equal to or exceeding 60% of any particular region.
- Confidential.

DISCLOSURE

This document and the information contained herein is the proprietary information of PIP; it may not be reproduced, amended, or used for any other purpose, without the prior written permission of PIP. This document is distributed by Pantheon, a firm that is authorised and regulated by the Financial Conduct Authority ("FCA") in the United Kingdom. The information and any views contained in this document are provided for general information only. Nothing in this document constitutes an offer, recommendation, invitation, inducement or solicitation to invest in PIP. Nothing contained in this document is intended to constitute legal, tax, securities or investment advice. The general opinions and information contained in this publication should not be acted or relied upon by any person without obtaining specific and relevant legal, tax, securities or investment advice. You should remember that the value of an investment in PIP, and any income from it, may go down as well as up, and is not guaranteed, and investors may not get back the amount of money invested. In addition, past performance is not necessarily indicative of future results. You should note that investments in private equity may be illiquid and may involve a high degree of risk, including potential loss of principal invested.

In addition, most of PIP's investments are in funds whose principal investment focus is outside the UK. Movements in exchange rates between sterling and other currencies therefore effects the value of PIP's investments. Further, the market price of PIP's shares may reflect a discount in the net asset value of PIP's shares, and this discount may increase or reduce due to market factors which are unrelated to PIP's NAV or performance. Losses may be multiplied since PIP invests in a range of private equity strategies including buyouts that commonly use gearing. PIP's investment valuation method is reliant on financial information provided by underlying funds and companies into which it invests. Valuation methods used by those funds and companies may be inconsistent. Pantheon has taken reasonable care to ensure that the information contained in this document is accurate at the date of publication.
